CERTIFICATION

BEEHIVE ENTREPRENEURSHIP PROGRAM: MOOC (2019)

Entrepreneurship for ALL via MOOC to inspire students' personal growth by enhancing their entrepreneurial skills and knowledge.

OBJECTIVE

To utilize my skills as a web developer to contribute in creating attractive, user-friendly, and functional websites, while continuously learning and growing. I aim to collaborate with a skilled team to deliver top-notch web solutions that go beyond client expectations and drive business growth.

EXPERIENCE

WEB DEVELOPER

Proweaver, Inc.

11/2019 – 06/2023

- Developed website online forms based on provided file references or layouts.
- Implemented website modifications and content updates on pages according to client requests.
- Resolved issues to enhance website functionality.
- Incorporate third-party plugins/APIs on WordPress websites.
- Activated blog, testimonial, and other custom features on WordPress websites.
- Led a team of developers, providing guidance, conducting web quality assessments, and coordinating tasks to effectively meet client expectations and deliver innovative solutions.

SOFTWARE DEVELOPER INTERN

SystemsCore Incorporated

07/2018 – 03/2019

- Designed and developed a user-friendly web document scanning application utilizing ASP.NET MVC and a scanning SDK.
- Developed a web application to track the number of players at various locations utilizing Google Maps API with JavaScript.
